# **PUBLIC EDUCATION AND OUTREACH PROGRAM**

## **TOWNSHIP OF ANTRIM, FRANKLIN COUNTY, PENNSYLVANIA PUBLIC EDUCATION AND OUTREACH PROGRAM**

The Public Education and Outreach Program (PEOP) for the Township of Antrim, Franklin County, Pennsylvania has been established in accordance with the Township's Municipal Separate Storm Sewer System's (MS4) National Pollutant Discharge Elimination System (NPDES) General Permit Number PAG133705 issued on June 1, 2015. This program is required for the Township of Antrim to maintain compliance with the Pennsylvania Department of Environmental Protection through the enforcement of the criteria as set forth in our NPDES Permit. This program is subject to periodic review and revision to maintain compliance with our NPDES Permit and with the PADEP.

Antrim Township's MS4 Area is as set forth on the attached Exhibit A. PADEP only requires the NPDES coverage for this MS4 area. Antrim Township has adopted regulations to apply to the entire Township of Antrim to better protect our community from contaminated water and to obtain a cleaner environment for our residents to enjoy.

The PEOP applies to the residential and non-residential areas of the entire Township of Antrim, Franklin County, Pennsylvania that have stormwater management controls on their property or in their development. Exhibit B, attached hereto and incorporated herein by reference, shall provide a listing of Developments or affected areas. The details of such areas are kept electronically and only produced upon request. Exhibit B and the electronic record shall be updated on a regular basis, but not less than once annually within the approved NPDES permitting period. This information is subject to Act 3 of 2008 known as the Right to Know Law. Electronic records may be exported at no cost. Paper copies will subject to fee not greater than the cost to produce them.

**The Antrim Township Public Education and Outreach Program shall be implemented in accordance with the below sections.**

### **SECTION A – Web Site Maintenance**

1. The Township shall establish and maintain a section of their Municipal Website solely dedicated for the purpose of providing:
  - basic stormwater information and general good housekeeping practices,
  - notice to residents of their responsibility for routine inspections of their stormwater controls and of the Township's ability to conduct on-site inspections,
  - contact information on how to obtain detailed information on their specific property, and
  - helpful links to DEP's and EPA's stormwater websites along with other links to information materials.
2. The website shall be updated on a regular basis, but no less than once annually within the approved NPDES permitting period.

### **SECTION B – Distribution of Materials to Target Audience.**

1. In addition to the stormwater education section of the municipal website, Antrim Township shall accomplish at least two additional outreach initiatives within the permit year in

accordance with the schedule. Outreach for the following permitting year shall be submitted for inclusion into the Township's annual budget no later than October of the preceding year to ensure adequate funds are available.

| AT A MINIMUM, ONE OF THE ACTIVITIES LISTED BELOW SHALL BE COMPLETED BY MARCH 1 <sup>ST</sup> OF EACH YEAR.  | AT A MINIMUM, ONE OF THE ACTIVITIES LISTED BELOW SHALL BE COMPLETED BY SEPTEMBER 1 <sup>ST</sup> OF EACH YEAR.   |
|---|--|
| <ul style="list-style-type: none"><li>• Stormwater Poster Contest for a grade level in the Greencastle Antrim School District.</li><li>• Presentation during Board of Supervisors meeting on stormwater (include importance of proper septic system maintenance, proper use and disposal of garden chemicals, importance of maintaining a riparian buffer and proper disposal of waste)</li><li>• Distribute a fact sheet or postcard with spring cleanup tips and reminders to inspect their stormwater controls after each rain event.</li><li>• Radio segment on good housekeeping practices for stormwater and the ever changing stormwater regulations.</li><li>• Provide pollution prevention tips to businesses.</li></ul> | <ul style="list-style-type: none"><li>• Presentation to 3<sup>rd</sup> graders of the G-A school district during their annual tour.</li><li>• Run an article in the newspaper on good housekeeping practices for fall and winter season.</li><li>• Distribute a newsletter containing stormwater awareness information and links to where they can find additional information.</li><li>• Advertisements or pamphlets placed around various public locations promoting stormwater awareness.</li><li>• Provide posters to local businesses to post in employee breakrooms on stormwater awareness.</li></ul> |

# **PUBLIC INVOLVEMENT AND PARTICIPATION PROGRAM**

## **TOWNSHIP OF ANTRIM, FRANKLIN COUNTY, PENNSYLVANIA PUBLIC INVOLVEMENT AND PARTICIPATION PROGRAM (PIPP)**

The Public Involvement and Participation Program (PIPP) for the Township of Antrim, Franklin County, Pennsylvania has been established in accordance with the Township's Municipal Separate Storm Sewer System's (MS4) National Pollutant Discharge Elimination System (NPDES) General Permit Number PAG133705 issued on June 1, 2015. This program is required for the Township of Antrim to maintain compliance with the Pennsylvania Department of Environmental Protection through the enforcement of the criteria as set forth in our NPDES Permit. This program is subject to periodic review and revision to maintain compliance with our NPDES Permit and with the PADEP.

Antrim Township's MS4 Area is as set forth on the attached Exhibit A. PADEP only requires the NPDES coverage for this MS4 area. Antrim Township has adopted regulations to apply to the entire Township of Antrim to better protect our community from contaminated water and to obtain a cleaner environment for our residents to enjoy.

The PIPP is open to anyone who lives or works in Antrim Township. Any interested party is encouraged to take part and assist the Township in various educational activities throughout the permit year.

The Antrim Township Public Involvement and Participation Program (PIPP) shall be implemented in accordance with the below sections.

### **SECTION A: WORKSHOPS**

Once annually the Township of Antrim shall hold a stormwater workshop to encourage residents and business owners to get involved in planning the stormwater activities for the upcoming year. The workshop will be advertised one time in a newspaper of general circulation and promoted through social media and other news media available to the Township. The workshop shall take place before September of each year to ensure programs are included in the budget for the following year. At least one Antrim Township Supervisor and one staff member shall be present to facilitate and conduct the workshop.

During this workshop our current programs will be reviewed. Attendees may make suggestions on how to improve the program, relay concerns with current programs and assist in improving the implementation of the programs overall. Any suggestions made must be expanded upon to make sure it can be implemented in the upcoming year. Budgeting of the program will also be discussed to ensure that all ideas are feasible and that funds can be available to ensure the activities are completed.

### **SECTION B: ESTABLISHMENT OF A STORMWATER ADVISORY COMMITTEE.**

Once annually the Township of Antrim shall reach out to residents and business owners to seek interest in serving on a stormwater advisory committee. This may be done by advertising in a newspaper of general circulation, through social media and/or other means available to the Township. Serving on the committee would be voluntary and no payment for time or service would be received. Requests to join the committee can be made at any time through the year.

The purpose of the committee is to assist the Township in the distribution of educational materials, attending educational stormwater workshops or seminars that would be beneficial to the committee in their duties and to the Township, and to assist the Township in all aspects of implementing stormwater programs.

Interested parties shall make application to the Township in the form of a letter notifying the Township of their interest to serve. At a minimum, the letter shall contain:

- Their personal information such as name, address, telephone number and e-mail address.
- Availability to meet during the Township's normal business hours and their after-hour availability.
- A description of their qualifications to serve and what assets they could bring to the committee.
- A statement of their connection or interest in the Township of Antrim that has driven them to want to serve on the committee.
- An acknowledgement of their duties to the committee.

The Township shall review the letter and respond in writing as to whether they were chosen to serve or not. The Township is not required to give an explanation as to why an applicant was not chosen.

The Township is not required to have a stormwater advisory committee. A stormwater committee will not be established without interest from the public to serve. In the event, there are at least three interested parties in addition to Township personnel, the committee will be established. The maximum number of committee members to serve is at the discretion of the Township. The committee, if established, shall meet no less than two times within the permit year. The stormwater workshop may count as one meeting if the committee is in attendance.

# **ILLICIT DISCHARGE DETECTION AND ELIMINATION PLAN**

## **TOWNSHIP OF ANTRIM, FRANKLIN COUNTY, PENNSYLVANIA ILLICIT DISCHARGE DETECTION AND ELIMINATION (IDD&E)**

The Illicit Discharge Detection and Elimination (IDD&E) program for the Township of Antrim, Franklin County, Pennsylvania has been established in accordance with the Township's Municipal Separate Storm Sewer System's (MS4) National Pollutant Discharge Elimination System (NPDES) General Permit Number PAG133705 issued on June 1, 2015. This program is required for the Township of Antrim to maintain compliance with the Pennsylvania Department of Environmental Protection through the enforcement of the criteria as set forth in our NPDES Permit. This program is subject to periodic review and revision to maintain compliance with our NPDES Permit and with the PADEP.

Antrim Township's MS4 Area is as set forth on the attached Exhibit A. PADEP only requires the NPDES coverage for this MS4 area. Antrim Township has adopted regulations to apply to the entire Township of Antrim to better protect our community from contaminated water and to obtain a cleaner environment for our residents to enjoy.

Antrim Township owns roads that generate stormwater runoff. We inspect our outfalls (the lowest points where stormwater leaves the roadway) to ensure that we are not polluting water ways or causing areas of potential flooding. Antrim Township also regulates stormwater on private property. We require regular inspection of private systems located within developments, on residential properties, or on non-residential properties.

To gain compliance with this program we have divided the Township into two sections. Section A: "Pre-regulatory" applies to areas that were developed prior to stormwater management. Section B: "Regulated" applies to areas with stormwater management.

### **SECTION A: PRE-REGULATORY.**

#### **1. Description:**

The majority of the Township roads and villages are old and existed prior to stormwater management. These areas sheet flow down the road into fields or grassy areas or into State owned and maintained culverts.

#### **2. Implementation:**

- The Antrim Township road crew shall regularly inspect and maintain cross culvert pipes that are located within the road right of way. At a minimum, the culverts shall be inspected one time per permit year. Culverts that are blocked or damaged shall be repaired in a timely basis based on the severity of the blockage or damage. The schedule for replacement shall be at the discretion of the Township Roadmaster.
- The Township GIS system shall be utilized to:
  - locate all cross pipes.
  - catalog their size.
  - state the condition of the pipe.
  - Contain a description of any maintenance done in this area and the date it was conducted.

- Road side mowing shall be done on an annual basis.
- Street sweeping shall be done on an annual basis.
- Township employees while conducting regular business shall visually inspect open grass swales. Damaged or blocked swales are to be photographed, documented, and turned into the Code Enforcement Officer for corrective measures.
- When an accident occurs on the road way, EMS or road crew personnel shall remove debris and absorb any chemical spills so it can be removed from the roadway and swale areas. Any contaminated soil shall be removed. Fill the area back in with clean soil, seed the area and stabilize if necessary. The Franklin County Conservation District may be consulted if there is any question on the need for erosion and sedimentation controls.

## **SECTION B: REGULATORY**

### **1. Description:**

Regulated areas have stormwater controls of several different varieties based on the stormwater ordinance in effect when the property was developed. All stormwater controls approved were approved to be owned and maintained by either the property owner or some type of an association. Antrim Township has never accepted stormwater management controls. Antrim Township only maintains cross pipes that are underneath the roadway.

### **2. Implementation:**

- Each property owner or development association shall maintain stormwater management controls that are on their property or for their development. Maintenance of the stormwater system(s) on the property shall be performed in accordance with the approved plan for that location.
- The Private Property Stormwater Inspection (PPSI) form provided by the Township shall be completed within 12 hours after every rain event greater than 1" along with photographs of sufficient quality and number to show the stormwater system is functioning. The photo shall show a date and time stamp. In the event the stormwater system was not inspected after a rain event, a description should be noted as to why the inspection could not take place.
- In the event the system is not functioning properly; the property owner shall immediately take the necessary action to repair the system.
- At a minimum, all stormwater systems, features and/or appurtenances shall be inspected 4 times per year.
- PPSI forms and photographs shall be provided electronically to the Township Code Enforcement Officer within 15 days upon request.
- PPSI forms shall be organized or stored based on the date of the inspection in a method to be able to produce 1 years' worth of data if requested. Data is not needed every day; only for the days the stormwater system was inspected.
- Antrim Township has the right to access the property to conduct an inspection of the stormwater controls. Inspections by the Township shall be conducted at a minimum 1 time per 3 years.

# **CONSTRUCTION SITE**

# **STORMWATER RUNOFF CONTROL**

**TOWNSHIP OF ANTRIM FRANKLIN COUNTY, PENNSYLVANIA  
CONSTRUCTION SITE STORMWATER RUNOFF CONTROL**

Antrim Township has signed a Memorandum of Understanding (MOU) with the Franklin County Conservation District (FCCD) to implement and enforce the control of erosion and sedimentation (E&S). The FCCD has full jurisdiction to require the installation and maintenance of erosion and sedimentation controls.

The FCCD is committed to providing Antrim Township services relating to erosion and sedimentation control. They review subdivision and land development plans to ensure that during construction sediment stays on the affected property and does not runoff onto roads, streams or stormwater controls. The FCCD tracks and enforces the National Pollutant Discharge Elimination System Permits (NPDES) and reviews erosion and sedimentation controls for properties disturbing over 5,000 square feet of soil, but under one acre of soil.

Inspections of E&S controls are conducted by the FCCD. Any findings from the inspection shall be corrected within the give time frame. Failure to bring a site into compliance could result in a cease and desist order being placed on the property, the assessment of penalties, and/or other means provided for by law.

The MOU is attached for full disclosure.

**MEMORANDUM OF UNDERSTANDING**  
between the  
**FRANKLIN COUNTY CONSERVATION DISTRICT**  
and the  
**TOWNSHIP OF ANTRIM, FRANKLIN COUNTY, PENNSYLVANIA**

This Memorandum has been prepared jointly and agreed upon by each party for the following purpose:

To serve as a joint commitment by the signatory parties to ensure Best Management Practices (BMPs) are implemented to control accelerated erosion, prevent sediment pollution, maintain, reclaim, and restore water quality to the existing and designated uses of the waters of the Commonwealth for the benefit of the Municipality's citizens and downstream water users.

To serve as a basis for defining the role of each party in the cooperative relationship between the Franklin County Conservation District (District) and Antrim Township, Franklin County, Pennsylvania.

- I. In carrying out the intent of this memorandum, the Franklin County Conservation District (District) shall:
  - A. Provide to the Municipality a listing of its plan review fee guidelines and applications. The District will promptly notify the Municipality of any changes in the plan review fee schedule.
  - B. Receive all erosion and sedimentation pollution control (E&SPC) plans as required under Chapter 125 and 126 of the Code of the Township of Antrim Pennsylvania hereinafter referred to as "Code" and complete an initial review of the E&SPC plan within 37 business days of its receipt. If needed, reviews of subsequent E&SPC plan submissions (revisions) will be completed within 15 business days of their receipt.
  - C. For National Pollution Discharge Elimination System permits (NPDES) the District will notify the applicant and the Municipality between 10 - 22 business days of receiving an administratively complete application, letter of intent, notice of termination or permit renewal.
  - D. Notify and supply a copy of the approved erosion and sediment control plan to the Municipality if desired. Approval will be determined based on compliance with the requirements of Chapter 102 of the Pennsylvania Clean Streams Law. Notice will be given to the Municipality of all determinations that an E&SPC plan cannot be approved because of the inadequate information and/or failure of the applicant to develop an E&SPC plan in compliance with Chapter 102 of the Clean Streams Law.
  - E. Upon request of the Municipality, provide all applicants with the State's Erosion and Sediment Pollution Control Program Manual and related forms, worksheets, checklists, NPDES permit applications, etc., necessary to successfully prepare an E&SPC plan and apply for the NPDES permit.
  - F. In accordance with a routine inspection schedule and/or upon the request of the municipality, and/or upon receipt of a request from a third party, inspect ongoing earthmoving projects and complete a standard DEP site inspection report. The inspection report shall list any and all violations of the conditions with Chapter 102 of the Clean Streams Law and/or NPDES permit conditions. In conjunction with this responsibility, the district shall:
    1. Advise the municipality of all third party complaints. The source of the complaint shall remain anonymous in accordance with the State's Environmental Hearing Board policy.
    2. Provide a copy of all inspection reports and related correspondence to the affected earthmover and municipality within 10 calendar days of their completion.
    3. Invite the municipality (pending on availability) along on final inspection in order to terminate any NPDES permit.

- G. Serve as the repository for all E&SPC plans, NPDES applications, complaints, inspection reports, correspondence, etc., concerning the conduct of earth moving activities. All such information shall be contained in a dedicated filing system, which shall be available for inspection by municipal officials or by third parties by appointment only.
  - H. Commit the necessary staff time, and otherwise provide all information necessary to assist and facilitate the municipality in its conduct of enforcement proceedings as specified in the municipal ordinances.
  - I. Conduct inspections in response to complaints regarding earthmoving activities including agricultural plowing and tilling or animal heavy use areas. Copies of the inspection report will be supplied to the municipality within ten (10) days of completion.
  - J. Upon receiving a request from the municipal officials, and after appropriate municipal representatives have received the required training, the District will provide technical assistance and financial support, to the limit of its allocation approved by the State Conservation Commission, for the projects qualifying for the Dirt, Gravel and Low Volume Road Maintenance Program. The District will provide this service via an agreement with the municipality.
  - K. As part of a Delegation Agreement with the State Conservation Commission, the District will review all nutrient management plans submitted under Act 38 (PA Nutrient Management Act), approve those plans that meet Act 38 standards and monitor the implementation of those plans. The District will, upon request, evaluate and determine if an individual animal operation is subject to Act 38. In addition, the District will provide information on EPA's Confined Animal Feeding Operations (CAFO) regulations.
  - L. Upon written request by a landowner or operator, the District will provide technical assistance to farm owners and/or operators relating to AG E&S plans, manure management plans and nutrient management.
  - M. The District will assist municipal officials and citizen groups to form watershed associations for the purpose of addressing local water resource issues on a watershed basis.
  - N. Assist with Minimum Control Measure #4 (MCM#4) – Construction Site Storm Water Runoff Control as outlined in PAG133704 Appendix A (attached)
- 
- O. The purpose of the written program is to establish clear roles and responsibilities for the implementation of the MCM#4 requirements. An agreement between the permittee, the District and any other resources to be used by the permittee that clearly defines roles for each entity is recommended.
  - P. Provide assistance and access to permits in order to facilitate administration, tracking, compliance, and any necessary updates to the Township Code in order to be consistent with Chapter 102 requirements.

II. In carrying out the intent of this memorandum, the Municipality shall:

- A. Remind all citizens, builders, contractors, developers, and farmers that earth disturbance activities including clearing and grubbing of vegetation and construction for structures, require implementation of erosion and sediment (E&S) control Best Management Practices (BMPs) and that the District may require a written E&S plan and/or NPDES permit.
- B. Create and/or update Subdivision and Land Development ordinances to require erosion and sediment control plans to be registered and approved with the Franklin County Conservation District prior to municipality's final approval of subdivision and land development.
- C. Withhold issuance of any land use, building or other permits for earth disturbance projects involving 5,000 square feet or more, pending written confirmation that the project was reviewed and approved by the District. *Agricultural buildings are not exempt from obtaining E&SPC and/or NPDES permits.*

- D. Forward all questions pertaining to the preparation of E&SPC plans, application and fee guidelines to the District.
  - E. Encourage animal owners (except for dog & cat owners) to contact the District for information on developing manure management plans as well as AG E&S plans
  - F. Confirm with the District that there is a manure management plan or Nutrient Management plan and an AG & ES plan for any new building activity, for any animal operation including non-typical livestock.
  - G. When updating stormwater ordinances assure that rate, volume controls as well as looking at the water quality aspects are included.
  - H. Forward all third party complaints about ongoing earthmoving projects to the District for inspection.
  - I. **Prior to the Municipality's final approval** of any subdivision or land development plan and/or planned residential property; the applicant will be required to provide copies of application, notification and/or permit approval from the appropriate state or federal agencies for obstruction and/or encroachments to any waterway of the Commonwealth.
  - J. Upon notification by the District, withhold any grading plan, building, subdivision and land development, etc., permits:
    - 1. When and where it has been determined that an applicant has failed to secure an approved E&SPC plan from the District.
    - 2. When the applicant has failed to comply with implementation of the approved E&SPC plan.
    - 3. When the applicant has failed to obtain the proper State and Federal permits.
    - 4. If the project has been referred to the State for enforcement under the Pennsylvania Clean Streams Law.
  - K. Invite the District (pending on availability) along on any township inspections especially prior to any township adoption of utilities, roads, etc. to review E&S controls.
  - L. Within 10 working days of receipt of violation notice from the District that a site is in continued violation (all deadlines for voluntary compliance have expired), the municipality may, at its discretion, initiate the penalty and enforcement provision specified in the Municipal Ordinance(s). In such instances, the Municipality shall have access to all of the District's documents, findings and actions pertaining to the site that is in continued violation.
  - M. Administer the MS4 permit program and all Minimum Control Measures as outlined in the PAG13 permit and as required by the Department of Environmental Protection and the Environmental Protection Agency.
- III. This Memorandum of Understanding shall become effective immediately. It shall be reviewed periodically, as the need arises by either/or both parties, and may be amended by mutual consent of both parties. Either party may terminate this MOU at any time, following a 30-day written notice to the other party.

#### MCM #4: Construction Site Stormwater Runoff Control

If you checked Option MCM #4.A in Section E(4)-(6) of the NOI, then you are relying on DEP's statewide QLP for issuing NPDES Permits for Stormwater Discharges Associated with Construction Activities to satisfy all requirements under this MCM #4 and under BMPs #1 through #3 of MCM #5; therefore, all requirements are met for both this MCM #4 and BMPs #1 through #3 of MCM #5.

If you checked Option MCM #4.B in Section E(4)-(6) of the NOI, you are not relying on DEP's QLP for issuing NPDES Permits for Stormwater Discharges Associated with Construction Activities to satisfy this MCM #4 and BMPs #1 through #3 of MCM #5; therefore, you must implement and achieve all of the requirements in this MCM #4 and all of the requirements in MCM #5, including the Best Management Practices (BMPs) and the Measurable Goals.

The following are the requirements for MCM #4 that are included in the Federal Regulations:

- Develop, implement, and enforce a program to reduce pollutants in any stormwater runoff to your small MS4 from construction activities that result in a land disturbance of greater than or equal to one acre, including projects less than one acre that are part of a larger common plan of development or sale that equals one acre or more (40 CFR Part 122.34(b)(4)(i)).
- Develop and implement an ordinance or other regulatory mechanism to require erosion and sediment controls, as well as sanctions to ensure compliance, to the extent allowable under State or local law (40 CFR Part 122.34(b)(4)(ii)(A)).
- Require construction site operators to implement appropriate erosion and sediment control best management practices (BMPs) (40 CFR Part 122.34(b)(4)(ii)(B)).
- Develop and implement requirements for construction site operators to control waste at the construction site that may cause adverse impacts to water quality. These wastes can include discarded building materials, concrete truck washout, chemicals, litter, and sanitary waste (40 CFR Part 122.34(b)(4)(ii)(C)).
- Develop and implement procedures for site plan review which incorporate consideration of potential water quality impacts (40 CFR Part 122.34(b)(4)(ii)(D)).
- Develop and implement procedures for receipt and consideration of information submitted by the public (40 CFR Part 122.34(b)(4)(ii)(E)).
- Develop and implement procedures for site inspections and enforcement of control measures (40 CFR Part 122.34(b)(4)(ii)(F)).

Under 25 Pa. Code, Chapter 102 of Department regulations issued under the authority of the Pennsylvania Clean Streams Law, the permittee (a municipality or a county) may not issue a building or other permit or final approval to those proposing or conducting earth disturbance activities requiring a DEP permit until the DEP has issued an individual NPDES Permit, or DEP or a delegated county conservation district (CCD) has approved coverage under the general NPDES Permit for Stormwater Discharges Associated With Construction Activities.

**BMP #1:** Develop your program consisting of all procedures necessary to comply with the requirements of this MCM. Your program shall provide for construction stormwater permitting, construction inspection, and enforcement of installation and maintenance of the necessary E&S control measures. Your program shall describe clearly how your program will be coordinated with DEP's NPDES Construction Stormwater Permitting program.

**Measurable Goals:** For new permittees, the written program for this MCM shall be developed during the first year of permit coverage; nevertheless, you are responsible for implementation of this MCM during entire term of this permit, including the time you are developing your program.

For all permittees, your program shall be reviewed and updated during each year of permit coverage. The purpose of the written program is to establish clear roles and responsibilities for the implementation of the MCM #4 requirements. An agreement between the permittee, the CCD, and any other resources to be used by the permittee that clearly defines roles for each entity is recommended. If an agreement is made, you shall place and keep a written copy in your file, consistent with the Retention of Records requirements in this Permit. Please note that in accordance with Section A.2.h in Part A of the Authorization to Discharge, as the permittee you are responsible to ensure that implementation of all requirements under this Permit are fulfilled.

**Recommendation:** Develop a tracking system that summarizes your actions to comply with this BMP (e.g., number of active construction sites, Inspections, enforcement actions, etc.) and which can be described in a summary report format.

**BMP #2:** The permittee shall enact, implement, and enforce an ordinance to require the implementation of erosion and sediment control BMPs, as well as sanctions to ensure compliance.

**Measurable Goal:** Within the first year of coverage under the permit, new permittees shall enact and implement an ordinance that meets all applicable requirements of this permit.

**Measurable Goal:** Permittees shall submit a letter signed by a municipal official, municipal engineer or the municipal solicitor as an attachment to their first periodic report certifying the enactment and implementation of a stormwater management ordinance that meets all requirements of this permit.

**BMP #3:** Develop and implement requirements for construction site operators to control waste at the construction site that may cause adverse impacts to water quality. While sediment is the most common pollutant of concern for MCM #4, there are other types of pollutants that also can be a concern and the intent of this BMP is to address these other types of pollutants, such as, but not limited to, discarded building materials, washout from concrete trucks, chemicals, litter, and sanitary waste.

**Measurable Goal:** New permittees shall establish requirements to address this BMP by the end of the first year of permit coverage. Renewal permittees shall continue to implement existing requirements and update as necessary. This could be implemented by written municipal ordinance/code provisions, by standard notes on the site plan, by any other written format that accomplishes the objectives of this BMP, or by any combination of these measures. The goal of this BMP shall be communicated to construction site operators during pre-construction meetings. This BMP shall be implemented during each year of the MS4 permit. Permittees must prepare and maintain records of site inspections, including dates and results and you must maintain these records in accordance with the Retention of Records requirements in this Permit.

**Recommendation:** Verification of proper waste handling procedures can be determined at the same time that site E&S control inspections are conducted under BMP #1, described above.

**BMP #4:** Develop and implement procedures for the receipt and consideration of public inquiries, concerns, and information submitted by the public (to the permittee) regarding local construction activities. The permittee shall demonstrate acknowledgement and consideration of the information submitted, whether submitted verbally or in writing.

**Measurable Goal:** Permittees shall establish and implement a tracking system to keep a record of any submitted public information as well as your response, actions, and results. This BMP shall be implemented during each year of coverage under this General Permit and information should be submitted with the each periodic report.

**Recommendation:** Develop a tracking system that can keep a record of information submitted by the public as well as your responses to such public inquiries. The tracking system should be capable of producing periodic summary reports.

**POST-CONSTRUCTION  
STORMWATER MANAGEMENT IN  
NEW OR RE-DEVELOPMENT**

**ANTRIM TOWNSHIP FRANKLIN COUNTY PENNSYLVANIA  
POST CONSTRUCTION STORMWATER MANAGEMENT IN  
NEW AND RE-DEVELOPMENT**

Post Construction Stormwater Management Controls (PCSM) are required for all new development or re-development in Antrim Township. The purpose of PCSM controls is to assess the pre-development flow rate of stormwater and control the stormwater to be the same rate or less than that rate after construction. This is done by infiltrating as much water as possible back into the ground to replenish our groundwater to promote safe wells and to protect our surface waters from contaminated stormwater runoff.

PCSM plans are submitted by the property owner and/or their engineer before subdivision or land development plans are approved. The Township engineer reviews the proposed controls and offers comments. A subdivision plan, a land development plan, nor a land use permit may be issued if PCSM controls have not been approved. All PCSM controls shall be reviewed for compliance with the Code of the Township of Antrim Chapter 126 entitled "Stormwater", by the FCCD, and approved by the Antrim Township Board of Supervisors.

The approved stormwater system must be constructed per the approved plan. The location for the stormwater control shall be protected from construction operations. Antrim Township conducts inspections of the installation of the system. After the system is constructed, as built drawings are submitted to the Township certifying the controls were constructed per the plan and that they will operate as planned.

The property owner is responsible for the on-going inspection and maintenance of the system. They must inspect the system regularly and after every significant rain event. They are required to keep written record that, at a minimum, contains:

1. the date of the inspection,
2. the accumulation of rain, if any, prior to the inspection,
3. if it is functioning properly, and
4. what corrective measures were taken if it was not functioning.

This inspection record shall then be turned into the Township upon request.

Antrim Township may inspect all PCSM controls to ensure compliance. At a minimum, the Township will conduct inspections once annually for the first three years and then once every three years after that.

# **POLLUTION PREVENTION AND GOOD HOUSEKEEPING**

## **TOWNSHIP OF ANTRIM, FRANKLIN COUNTY, PENNSYLVANIA**

### **POLLUTION PREVENTION AND GOOD HOUSEKEEPING**

The Pollution Prevention and Good Housekeeping Guidelines for the Township of Antrim, Franklin County, Pennsylvania has been established in accordance with the Township's Municipal Separate Storm Sewer System's (MS4) National Pollutant Discharge Elimination System (NPDES) General Permit Number PAG133705 issued on June 1, 2015. This guidance is required for the Township of Antrim to maintain compliance with the Pennsylvania Department of Environmental Protection through the enforcement of the criteria as set forth in our NPDES Permit. The contents of this guide are subject to periodic review and revision to maintain compliance with our NPDES Permit and with the PADEP.

The following sections act as a guide to Township personnel to be good stewards of the Township and ensure we are operating in a manner consistent with our goals and in compliance with our NPDES permit.

#### **SECTION A: FACILITY IDENTIFICATION**

This section identifies facilities within the Township that are owned or operated by the Township that have the potential of generating stormwater runoff.

| <b>Facility</b> | <b>Address</b>                     | <b>Facility</b>                | <b>Address</b>                   |
|-----------------|------------------------------------|--------------------------------|----------------------------------|
| Lift Station 1  | 2221 Buchanan Trail East           | Lift Station 17                | 600 E Baltimore Street           |

## **SECTION B: OPERATION AND MAINTENANCE PROCEDURE**

This section establishes procedures for the operation and maintenance of Township Facilities that have the ability to discharge pollutants.

|   |   |
|---|---|
| Street sweeping                                     | Annually or as needed in events of mud or stones enter roadway.   |
| Snow removal  | Plowed to side of road – cautious to not block swales or inlets.  |
| Culvert cleaning                                    | Once per month rotation.  |
| Grounds care  | <ul style="list-style-type: none"><li>• Weekly mowing.</li><li>• Regular inspection for disturbed ground.</li></ul>   |
| General storm sewer inspections                     | Weekly or after each significant rain event.  |
| Storm sewer maintenance/repairs                     | Repairs made or stabilize as needed by roadcrew.  |
| Park and open space maintenance                     | Weekly mowing.  |
| Municipal building maintenance                      | <ul style="list-style-type: none"><li>• Weekly mowing.</li><li>• Plowing as needed in winter months.</li><li>• Inspect for erosion regularly.</li></ul>   |
| New construction                                    | <ul style="list-style-type: none"><li>• Implement E&amp;S controls as approved by FCCD.</li><li>• Stabilize upon completion.</li></ul>  |
| Land disturbances                                   | <ul style="list-style-type: none"><li>• Implement E&amp;S controls as approved by FCCD.</li><li>• Stabilize upon completion.</li></ul>  |
| Right of way maintenance                            | <ul style="list-style-type: none"><li>• Mow as needed.</li><li>• Stormwater swales are maintained by property owners.</li><li>• Road edging.</li><li>• Stabilize as needed.</li></ul>   |
| Vehicle operation, fueling, washing and maintenance | <ul style="list-style-type: none"><li>• All vehicle or equipment fluids disposed of or recycled per manufacturer recommendation.</li><li>• Fueling at gas pumps located at municipal building.</li><li>• Wash at carwash or over grass area away from stormwater facilities.</li><li>• Any spill or leak is soaked up, swept up and properly disposed of.</li></ul> |
|   |   |
|   |   |

## **SECTION C: ANTRIM TOWNSHIP EMPLOYEE TRAINING PROGRAM**

Training programs that promote stormwater awareness are provided to Antrim Township employees. The goal for all Antrim Township employees is to:

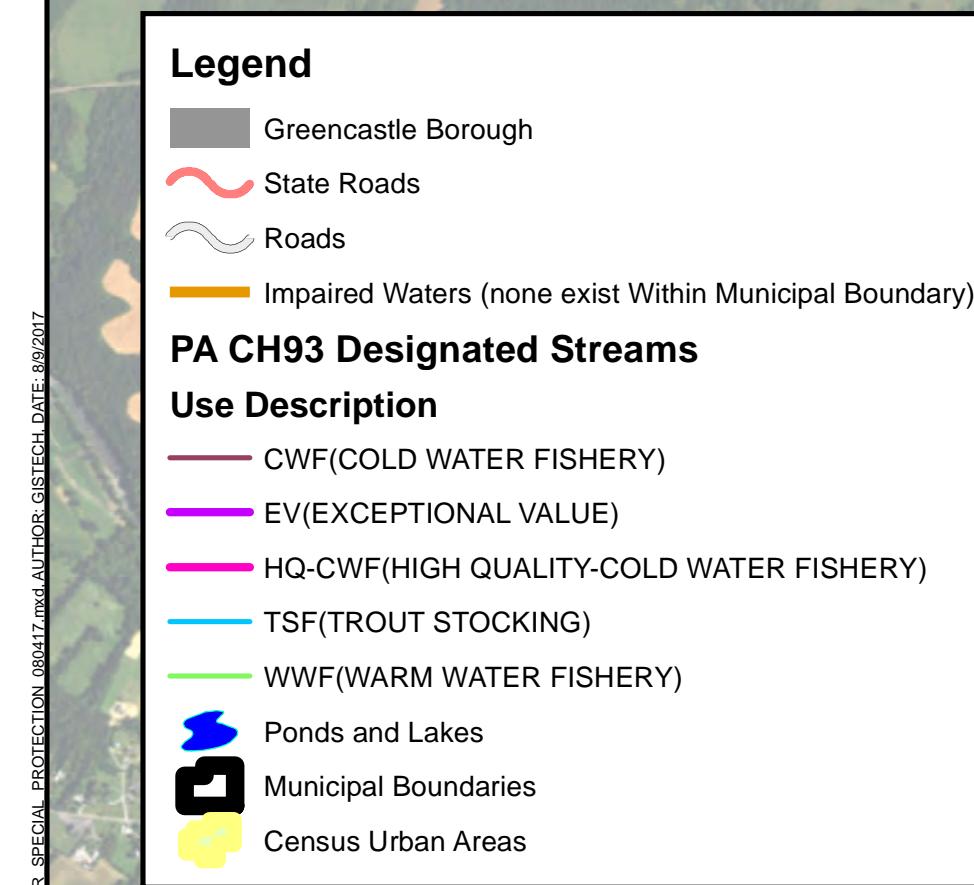

- identify stormwater controls and recognize if they are functioning properly,
- understand what controls are the responsibility of the Township and which controls are to be maintained by private property owners,
- always be aware of disturbed areas and how to properly stabilize them based on their location,
- know how to properly install E&S controls during projects that could result in sediment leaving the site,
- know who to notify when:
  - stormwater is not being properly managed,
  - is present when rain has not occurred,
  - areas of disturbed soil have been located,
  - areas of standing water exist,
- know the proper handling of equipment and vehicle fluids,
- develop an overall daily awareness of stormwater management.

Training may occur in a group or may be completed individually. A record of the training received by each employee shall be documented by noting the date, the type of training received, and what employee attended.

Training may be conducted in house or by a 3<sup>rd</sup> party agency. The topic for each training session may vary based on the need to accomplish the goals listed above.
